Hrvatska transplantacijska škola
Croatian Transplantation School

Cijenjeni kolegice i kolege,

Hrvatsko društvo za nefrologiju, dijalizu i transplantaciju Hrvatskog liječničkog zbora organizira **8. Hrvatsku transplantacijsku školu** koja će se održati u virtualnom obliku 8. i 9. listopada 2021. godine. Ovogodišnja tema je COVID-19 i transplantacija. Program obuhvaća različite aspekte COVID-19 koji na specifičan način utječu na bolesnike s presađenim organom, prvenstveno bubregom. Sadržaj će, uz nefrologe, pružiti i drugi specijalisti i stručnjaci i tako stvoriti širu sliku o ovoj aktualnoj problematici. U skladu s edukativnom ulogom Škole, teme će svojom raznolikošću sustavno prenijeti do sada poznate medicinske spoznaje utemeljene na dokazima i ukazati na postojeće dvojbe. I ove su godine predavači iz Hrvatske i inozemstva pa Škola ima međunarodno obilježje. Očekujemo interaktivnu komunikaciju i konstruktivnu raspravu o ovoj važnoj temi, uključujući i uobičajeno aktivno sudjelovanje mladih kolegica i kolega vlastitim prezentacijama. Edukativni sadržaj Škole bit će dodatno dostupan na web stranicama HDNDT-a.

Radujemo se Školi i virtualnom druženju!

Predsjednik Hrvatskog društva za
nefrologiju, dijalizu i transplantaciju
doc. dr. sc. **Mario Laganović**, dr. med.

Dear colleagues,

Croatian Society for Nephrology, Dialysis and Transplantation of the Croatian Medical Association organizes the **8th Croatian Transplantation School** which will be held online on 8 and 9 October 2021. The topic of the School is COVID-19 and transplantation. The programme covers various perspectives of COVID-19 which affect patients with solid organ transplant in specific manner, particularly the kidney transplant. The School content will be completed not only by nephrologists, but also by other specialists and professionals, thus providing a broad picture of the present issue. In accordance with the educative role of the School, the miscellaneous topics will systematically present to date available evidence based knowledge and also point to the current dilemmas. The lectures will be held by Croatian and presenters from abroad, thus the School will have an international level. We expect an interactive communication and constructive discussion about this important theme, including the participation of our young colleagues with their presentations. The educative content of the School will be additionally available at the webpages of the Croatian Society of Nephrology, Dialysis and Transplantation.

We are looking forward to the School and virtual socializing!

President of the Croatian Society of
Nephrology, Dialysis and Transplantation
assist. prof. **Mario Laganović**, MD, PhD
